force is approximately 1,900, <sup>but</sup> Plans call for the employment of  
 6,000 workers by 1960.

In 1957, the USSR supplied old rubber-processing machines,  
 which, <sup>however,</sup> could not be used for tire production, ~~however,~~ The <sup>USSR</sup> Soviet  
<sup>500 thousand</sup> Union demanded ~~one half million~~ rubles for the machines it delivered.

This amount must be paid, even though the machines cannot be used.

The machines <sup>are marked</sup> carry the trade mark "Leningrad".

In 1957 <sup>two</sup>  
~~This year (1957)~~ new special machines, rubber-calendering  
 machines, were purchased

Other special machines were imported from  
 East Germany, and installed in the new plant workshops. The machines  
 are from East Berlin, and carry the firm name: Krupp-Gruson. Pay-  
 ments to East Germany for the machines <sup>are</sup> made in rubles.

50X1-HUM

The production capacity is 1,500 tires per day.

The raw material is obtained from the USSR. The tires are of  
 inferior quality.

The plant works in 3 shifts: from 0600 - 1400; from 1400 -  
 2200; and from 2200 - 0600 hours.

Sunday is not a workday.

The monthly turnover amounted to 15 million zlotys.

The work is done according to norms. The worker receives 4.50 zlotys per unit, according to qualification. Monthly earnings per worker are 900 zlotys. Specially qualified workers attain monthly earnings up to 2,000 zlotys.

Tires are produced for domestic consumption. A small percentage is exported to the USSR. There are <sup>two</sup> other tire factories in Poland: in <sup>Poznan</sup> ~~Posen~~ and in Sanok.

Domestic tires can be bought at the State sales/outlets only by holders of purchase permits. The purchase permits are issued by the State Procurement Office. Tires of foreign manufacture can be bought only in enterprises which sell on commission, at very high prices.

Prices for Automobile Tire and Tube Sets:
